Introduction

NBN International is located at the Airport Business Centre, 10 Thornbury Road, in the Estover Industrial Estate area of Plymouth.

Our Goods-In Department is well equipped with unloading equipment and has a large covered loading and unloading bay. We will have set procedures for accepting deliveries. The following Goods In specification has been produced in order to ensure inbound product into NBN International can be processed through the Goods In procedure efficiently, effectively and safely.

Our usual service levels are for the Goods In department to turn around deliveries of Publishers stock for the supply of orders within a maximum of five working days from the point of receipt.

We also have agreed month-end cut-off dates. To ensure stock arrives in time for the processing of sales within the same month the month end cut-off dates should be observed.

Booking-In

All loads to be delivered must be booked in preferably 72 hours and at least 48 hours in advance with our Goods In Department by telephone on +44(0) 1752 202370 (NB: new number to previous).

Carriers should leave a message stating:

1. Carrier or courier name
2. Publisher name
3. No. of boxes and/or pallets
4. Preferred date of delivery
5. Contact number / Email contact

Messages will be checked throughout the day and all carriers will be contacted so that booked in shipments can be given a reference number, which must be quoted to the Goods In Department upon arrival.

On receipt, goods will be checked for pallets delivered/number of cartons. Any signatures provided will confirm the quantity of pallets/cartons received, 'unexamined'. Incomplete deliveries may be refused on arrival and any shortages or variations will be notified in writing to our Publisher who may make any claims within 48 hours.

Deliveries must arrive in good time on the day of booking. Failure to warn of non-delivery or lateness will mean that delivery will be placed at the end of the queue or refused and will then need to be re-booked.

The Warehouse is open for deliveries during the following hours: **Monday – Friday 8.30am to 2:30pm**

All publishers importing goods in to the UK must instruct their shippers to ship the goods "DDP" (Delivered Duty Paid).

Where publishers are importing goods from outside the EU (either from a distribution center or a printer), they should be registered with HMRC for an EORI number. This number must be notified to any shippers or agents bringing goods in to the UK. This ensures that any duty or tax will be recorded against the publishers' EORI number and not NBNI's number.

HMRC state that:

"Within the EU, most goods can be imported with minimal customs control and, mostly, no import duty or VAT to pay.

Imports from outside the EU are treated differently:

1. you must make an import declaration to customs
2. you generally have to pay import duty and import VAT (plus VAT on import duty), although use of some customs procedures may suspend or relieve you from these taxes"

For further information on VAT/EORI, please see the following links:

Form for publishers without VAT numbers:

The EORI team can be contacted via an online form as below link:

NB: since 2009, importer's VAT or TURN numbers alone are no longer sufficient for these purposes. Those with TURN numbers should have been allocated an EORI as a matter of course. If in doubt, apply for an EORI as otherwise all goods imported without one get held by customs and additional charges applied.
